CYBR3010 Cybersecurity Foundations – Layer 2 Security Lab Marking Guide

Lab Documentation

Task	Criteria	Points					
Network Build Overview	Explanation of your network topology	0	2	4	6	8	10
MAC Table	Show switch's MAC table and explain how each device is assigned to its corresponding port.	0	2	4	6	8	10
Attacks	Explanation of each identified vulnerability and its potential impact.	0	3	6	9	12	15
Prevention & Mitigation	Explanation of security measures taken to mitigate each identified vulnerability.	0	3	6	9	12	15
Test results	Before and after scenarios	0	2	4	6	8	10
Network Diagram	The diagram is detailed and clearly represents the network setup.	0	2	4	6	8	10
Organization	Follow CYBR3010 Documentation Standards	0	3	6	9	12	15
Lab Assessment Questions	Responses are technically accurate, show clear understanding of networking concepts and all sources are cited properly.	0	3	6	9	12	15
